# IS400

## Flexible computerized engraving machine

### INNOVATIVE

Gravograph rotary machines from Gravotech are available with a host of unique and innovative features.

The IS400 features **iQ+** or "intelligence quotient". The iQ+ at Gravotech was specifically designed for Gravograph engraving machines.

Offering **streamlined electronics**, **new-generation firmware** and **enhanced communication** between the engraver and the computer.

### VERSATILE

Gravotech's **top selling computerized engraving machine** is suitable for professional engravers or the industrial user. The **IS400** solution is appropriate for a wide range of applications, including trophies and plaques, small signage, ADA signage, identification of industrial parts, and light machining. A variety of jigs and holding devices are available for the IS400. A vacuum table or t-slot table can hold down objects. Cylindrical devices engrave cylindrical or conical shaped items. A chip collector makes the removal of debris during engraving simple and hands free.

### EXCEPTIONAL SOFTWARE

Powered by **GravoStyle™** software. This unique software platform concentrates Gravotech's engraving expertise to offer you full support, whatever your engraving application. The software synchronizes your IS400 and its accessories, creating a **powerful production team**. GravoStyle™ **fully integrates** with your machine to **reduce engraving errors** by saving job settings and previewing work on the screen before you engrave. This decreases the amount of time to work the machine and **reduces repetitive tasks**.
